

I was born and raised in Aigion Achaia Greece,
Went to grammar school and high school of the same town,
Attended Electrical night school, while working during the day.
I served in the armed forces of Greece for 2 years, after that
I joined the merchant marines for another 2 years.

I came to USA in 1973, and I obtained my California State electrical license late 1970's

Attended Cuesta College for couple of years, then,
I obtained my Masters degree in Electrical engineering from the local State University.

I have worked for numerous companies, and numerous projects.
From wiring houses to begin with to commercial and Industrial work, Electricity is my expertise.

Building electrical power plants, nuclear, solar, etc...
I like my work, and I always learn something new every day.
When a person likes what they do they do it well.

I am the founder of the local Greek Orthodox Church in this county.
I was teaching the Greek language on the local parish, and get a school going for them.
The books were provided by the Greek consulate of San Francisco.

I get things done. I am married, 2 kids, and 2 grandchildren.
I live on the central coast of California on a ranch.
I have a lot's of blessings; I like to help HEC in any capacity.

I hope you vote for me serving on the E.C. board.

Respectfully yours
Eleftherios Dritsas
