Submission Guidelines

Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Papers should be at most 8 pages including the bibliography and well-marked appendices, and should follow the IEEE 8.5" x 11" Two-Column Format. Committee members are not required to read the appendices, and so the paper should be intelligible without them. Submissions are to be made to the submission web site. Only pdf files will be accepted. Submissions not meeting these guidelines risk rejection without consideration of their merits. Papers must be received by the submission deadline. Authors of accepted papers must guarantee that their papers will be presented at the conference. Accepted papers will be published in the IEEE conference proceedings (EI indexed). Selected best papers will be published in special issues of high quality journals (currently under negotiation).
