

Science Technology Engineering Arts Math (STEAM) & MENSA Greece

Program structure

- Set Gifted Children's Social and emotional needs' goal
- Choose the Subject
- Teaching Instructions based on strategists and methods in Gifted Ed.
- STEAM Advisors Suggestions (resources, ideas, activities) based on the subject each time (Brain, universe, AI, human and environment, are the subjects that we have covered so far)
- Monthly Lesson Plans development, implementation and assessment
- Gifted Children's Social and Emotional Needs' Evaluation
- Start from the beginning

Advisors

HEC could connect its members (who are Ph.D.s and specialists in STEAM fields) with Mensa.

Science
Technology
Engineering
Art
Math

Career Orientation

- STEAM careers are introduced to Gifted Students through the activities and the subject they work each time.
- Students' identify their competencies and career preferences through tests.
- Students' choose a STEAM field and ask questions to professionals in this field. HEC could help here providing these professionals. I could concentrate the questions and send it or ask it online to the professionals.
