

Our Twenty-Year History

HEC was founded by a group of Hellenes of the Diaspora in March of 1995.

With the advent of the Internet, the Founders had the foresight to appreciate the potential application of this new technology to the benefit of Hellenism. They acquired the domain name *Greece.Org*, and the Hellenic Electronic Center – an organization by which a sound, well organized, useful, and highly visible presence of Hellenism could be established on the Internet – was born.

The new organization was envisioned as a place for maintaining information about Hellenic civilization and culture, allowing Greeks around the world to access these information resources, communicate with others, and promote Hellenic ideals.

The idea of the HEC originated with the already established *Hellas* website, part of the *Hellas Discussion List* (an Internet-based pioneering communication mailing list among university students in the USA since 1989) and the creation of *The Poseidon Project*, a project about Hellas and The Sea in 1995.

HEC was incorporated in the State of Delaware (USA) on January 23, 1996.

With the help of many volunteers and sponsors, such as Hellas On-Line (HOL), Forthnet and Sysnet, HEC was launched during POSIDONIA '96 International Shipping Exhibition in Piraeus, Greece, in June of 1996.

In April 1997, HEC was recognized as a tax-exempt non-profit educational organization under Section 501(c)(3) of the (US) Internal Revenue Code.
